

### Web-based and Smart Phone-capable judge commentary recordings

You can use a “web-enabled” device (“smart phone” or “iPad”) or similar to log in and listen to any of your judge commentaries. Each guard can have multiple persons logged in and listen to different recordings simultaneously.

On your web-enabled device, go to [www.mwccgc.com](http://www.mwccgc.com) (this is a shortcut URL to the mobile website). You should see the screen to the right, and click on “Unit Directors”.

This area of the web site is for Board Members, Unit Directors, and Judges.  
 By logging in, you certify that you are an authorized user and agree to comply with By-Laws, usage policies, and intellectual property and copyright restrictions.

[Click here to return to the web site.](#)

You will then need to enter your login and password. This is the same login and password that you have been using on the website to view the “Directors Only” area.

If you need assistance, or if you want to modify your login and password to make them shorter or easier to remember, just contact Larry Bakko.

Each Unit Director and Staff Member should have their own login and password, with a specific “recovery” email address, so that you can recover your password if you cannot remember it.

After you log in, you will see a link for “2012 Shows”.

Note that when you are done using the system, you should tap or click on “Back” to return to this point, then tap or click on the orange “Log Out” button.

Tap or click on the link for “2012 Shows” and you will see the screen below. For demonstration purposes, the 2011 shows have been loaded. They will be removed from the mobile website soon, and only the 2012 shows will appear.

At this point, different devices and operating systems will look differently. When you tap or click on one of the “Listen” links, your mobile device should open an appropriate window and start downloading the file in some type of audio player, similar to the example to the right.

You should be able to start, stop, move back and forth to specific parts, replay, adjust volume, etc. After listening, you can close that player, and you should return to your unit screen showing the recordings again. You can play other recordings, or click “Back” as needed to return to the point where you can log out.
